	CEU trainings are \$15 to cover the cost of the certificate			CPR and First Aid will be \$15 per class

Training Descriptions

ITS SIDS: Infant/Toddler Safety and Sudden Infant Death Syndrome	This required training explains all the parts of the North Carolina's SIDS Law. Learners will review information about when and how to use the approved waivers, how to best place a baby in bed to sleep and other "best practice" recommendations.
NC Foundations for Early Learning and Development	This course will provide participants with an introduction to Foundations, North Carolina's new early learning and development expectations, how the standards are structured, and how to implement them in early childhood settings. Participants will construct the knowledge base necessary to use the standards in supporting children in their learning and development by embedding the expectations in daily classroom planning and practice.
Playground Safety	This session will satisfy the current safety course required by the North Carolina Division of Child Development. Four specific areas will be addressed: playground safety hazards, playground supervision, maintenance and general upkeep, and age and developmentally appropriate equipment. <i>This training meets the requirements for Health and Safety topic: 4. Building and physical premises safety, including identification of and protection from hazards that can cause bodily injury, such as electrical hazards, bodies of water, and vehicular traffic.</i>
Basic School-age Care (BSAC)	A 5-hour introductory level learning event for school age care professionals. This event includes the following modules: 1) Health, Safety, & Nutrition, 2) Environmental Design, 3) Child/Youth Development, 4) Developmentally Appropriate Activities, 5) Guiding Child Behavior, and 6) Quality School Age Care. It is required by the NC Division of Child Development and Early Education for school age care professionals working in licensed programs but also a great training for new staff in any afterschool program setting. At the completion of this learning event, learners will be able to create and promote learning environments that meet all children's developmental needs, foster positive behavior and identify quality elements of school age care. Knowledge gained will be assessed through group activities, feedback and pre and post survey.
Infant/toddler Zone	This training is part of the NC Supervision training series. In this training you will learn about positive methods of guiding behaviors, how to provide safe, enjoyable mealtime experiences and happy healthy interactions during diapering and toileting

Anson County Partnership for Children Semi-Annual Training Calendar

<p>Boys in the Preschool Classroom: Supporting and Engaging Them</p>	<p>Boys, especially high energy and boys of color, continue to be expelled from pre-kindergarten programs across the U.S. One study suggests that “boys” are treated like defective girls, implying that boys’ slower developmental rates, physical response styles and kinetic learning behaviors are seen as deficits and teachers wish them to be firmly and swiftly, “corrected”. In this high energy session, we will discuss common issues teachers identify concerning boys and suggest ways that teachers can create a learning environment that supports and engages boys (as well as girls). 0.5 CEU</p>
<p>Health and Safety for Infants & Toddlers Part 1&2</p>	<p>Meets the NC Child Care Rules for Health and safety training requirement for #9 Prevention of Shaken Baby Syndrome and Abusive Head Trauma, #2 Administration of Medication, #1 Prevention and Control of Infectious Diseases in Child Care and for #5 Emergency Preparedness and Response Planning for Emergencies Resulting from a Natural Disaster or a Man-Caused Event. This course will focus on warning signs and prevention strategies for shaken baby syndrome, NC Child Care Rules and the forms required to be completed before giving medication, the prevention and control of infectious diseases in a child care setting and the stages of emergency preparedness and response</p>
<p>CPR</p>	<p>The Heart saver CPR Course is a course that teaches lay rescuers how to recognize and treat life-threatening emergencies, including cardiac arrest and choking for adult, child and infant victims. Students also learn to recognize the warning signs of heart attack and stroke in adults and breathing difficulties in children.</p>
<p>First Aid & Safety</p>	<p>Child care providers will be instructed on the basics of how to provide first aid during an emergency. The Heart Saver First Aid course teaches rescuers to effectively recognize and treat emergencies in the first critical moments until emergency personnel arrives.</p>

Training Registration Form

Remember to sign up and pay for all trainings before the deadline date.

Payment must be received in order to reserve your spot in the class. If registering by mail, form and payment must be received in office 5 days prior to the training.

All trainings provided by Partnership staff will cost \$5.00 per person, unless otherwise noted. Providers who are not members of the Early Childhood Resource Center must pay \$10.00 for all trainings. All participants who do not live or work in Anson County will be charged \$20.00 per training.

No refund or credit will be provided for no-shows. The registration amount paid will be considered a donation for the cost of printing and preparation.

A minimum of 10 spaces must be filled before training will be conducted. If this number is not reached, we reserve the right to cancel the event. Learners will be notified by phone or email of any cancellations. Early registration is strongly encouraged to prevent the cancellation of any events.

*****Any participant that arrives more than 15 minutes late is welcome to stay for the class but will not receive a certificate or credit for the class attended*****
